VOLUME 34 — FRIDAY, MARCH 13th, 1942 — NUMBER [illegible]

Raymond Old Folks Royally Entertained

Raymond's Honored Guests, including widows, widowers and all over 60, were entertained in their annual party at the Stake House on Wednesday March 11, and spent the afternoon and evening in feasting, program and dancing. Including the cooks and members of Committees who supervised the entertainment, over 225 were in attendance, and the day concluded with a dance for all married folks.

Dinner was served at 2 p.m. and here the Honored Guests were served the best of everything, and all they could take of it. Chicken and turkey, all kinds of vegetables, fruits and pie and ice cream provided a menu that all could and did enjoy.

Just before 4 p.m. the programme commenced and the following numbers were given and greately enjoyed:

Speech of Welcome—Bishop L. L. Palmer.

Piano Duett — Mesdames Emma Dahl and Maybelle Anderson.

Comic Speech—Ronda Dahl.

Comic Reading—Melba King.

Vocal Duett—Mrs. L. D. King and Mrs. Leonard Watson.

Vocal Trio—The Bennett Sisters.

Paper—J. Wm. Evans.

"The Nations," a costume number directed by Mrs. Geo. Erickson.

Violin Solo—Miss Leta Jensen.

Three numbers by the Raymond High School Band.

Mr. and Mrs. Thos. Hicken from the First Ward and Mr. and Mrs. Heber Coles, the oldwere. The oldest couple present est from the Second Ward. Mrs. Zilpha Hancock was the oldest lady present.

Flowers were sent to 16 people unable to attend, and lunches were sent out to eight who could not attend.

An hour or two of visiting was enjoyed by all then as old times were recounted by the builders of the community. Then a plate lunch was served to all who remained about 150 and after this the hall was cleared for dancing, and a large crowd of married folks both old and young gathered to enjoy themselves.

S. B. Card was in charge of the program, and with D. A. Bennett heads the committee in the two wards who have this annual event in charge. Dinner was served in the social hall and the program in the chapel end of the Stake House.

NEWS NOTES

Airman Calvin Richardson of the R.C.A.F. is home on leave.

* * *

Verl Meldrum of the R.C.A.F spent Sunday at home here with his folks.

* * *

Mr. and Mrs. Magrath Merrill of Hill Spring were guests of Mr. and Mrs. C. E. Allred last Monday night.

* * *

Mark Dahl, Clayton O'Brien M. Anderson and several of the other boys were home on short leave over Sunday.

* * *

Frank Taylor, representing the Canadian Sugar Factories, Ltd., and Phil Baker representing the Southern Alberta Beet Growers, left Sunday for Vancouver, B. C. to discuss the Japanese question with government officials there

TOWN COUNCIL MEETING

Regular meeting of the Town Council was held Monday night. Because of the Basketball playoffs, the meeting was shortened to necessary business so that members of the Council could attend the game.

The motion of the local branch of the Legion was presented and was heartily endorsed by the Council. This motion had to do with the purchase or long term lease of land by enemy alien and those who are not loyal supporters of the Government.

A motion was also passed asking that in view of the amount of work there is here and the increasing population that a R.C.M.P. detachment be located here. The Council will put forth every effort now to see that this is done.

The School Board, who met in the Town Office presented their budget, but due to the brevity of the meeting the Council did not take any action, but are considering it as part of a special meeting held last night. The budget called for $40,000.00 from the Town, an increase of $6,000 over the last year's requisition. The added amount includes some important improvements at the High School.

The Mercaptile unloaded several cars of lumber and building supplies this week.

* * *

Work is progressing steadily on the new home of Mrs. Lyle Piepgrass which is being built on the lot between the Alex Smith and Ernie Organ homes.

RED CROSS NOTES

Below is a list of the knitting and sewing sent in by the local Red Cross to the Provincial headquarters:

20 pair Pyjamas.
2 pair Trousers.
6 Quilts.
20 Boy's Sweaters.
20 pair Boy's Socks.
19 Scarves.
20 Sleeveless Sweaters.
19 Scarves.
11 Seamen's Socks.
4 Helmets.
1 Turtle Neck Sweater.
24 pair Men's Socks.
2 Turtle Neck Tuck ins.
2 pair Mitts.
1 pair Gloves.
23 pair Ankle Socks.
1 Pneumonia Jacket.
36 Sheets.
120 Pillow Cases.
1 Dressing Gown.
18 Bed Gowns.

Mrs. Madill who has charge of the ladies work informed us that while much work has been done, there was a great deal of wool for knitting and also materials for sewing of all kinds. It would be appreciated by the Red Cross directors of this work if all ladies in the Town and district would put forth an extra effort to do some Red Cross work so that shipments from the local office could be increased. We add our appeal to that of the ladies for every person who can donate a few hours each week to the Red Cross to do so. The need of these materials and supplies grows daily as the horrors of war and its aftermath spread Do your bit to keep the need from outstepping the supply. Everyone can help.

Mass Meeting Sun. Mar. 15th.

A mass meeting, called by the Citizen's League, will be held next Sunday at 2p.m. in the Raymond Opera House. Invited to this meeting are representatives of all Boards of Trade and Legion chapters from High River south to the border.

The subjects of discussion will be the Japanese and the Hutterian question. It is generally agreed that these two items are of great importance right now, and in an effort to present a unified opinion to government authorities this meeting is called. Our good lands steadily passing to the ownership of the Hutterite and Mennonite colonies, with no support from them, to speak of, in the defense of the freedom they enjoy with us and the infiltration of Japanese amongst us demand the attention of all, and these matters will be discussed at this meeting.

WE ARE AT WAR

The Japanese question locally is the cause of a great deal of concern whether or not it is justified, is a question that each decides for him or herself This fact, however, we must face, we are at war with Japan. At present her only aim is to conquer and subject the peoples of the democracies to her way of thinking. These people are Japanese, and it is just as impossible for them to wean themselves away from their love of Japan as it would be for us to drop our love for Canada and the freedom and privileges we enjoy under the British flag. As the poet put it "Breathes there a man with soul so dead, Who never to himself hath said, This is my own my native land. I love thee well."

Are we taking undue and unnecessary risks in allowing these newcomers the freedom of our land & our institutions? We would not attempt to answer that one. But if we can believe repeated reports, the Canadian and British soldiers and women in Hong Kog, who have been taken prisoners of war are being treated worse than beasts. Tied up so that they cannot fight back, they are made targets for bayonet practise for the Nipponese soldiers. We are not implying that such things would happen here, but we cannot forget that these people are of the same racial origin. The Japanese who are permanent settlers here, we know; these newcomers we do not know. They may have relatives here, and friends too, but what do we know of their activities at the coast, and what do we know of their sympathies. "We know that in Europe the dictators treat all people of enemy nations worse than dogs. Starving them leaving them unclothed and in the filthiest of surroundings in the concentration camps.

We appreciate that friendships must be sacrificed in the name of safety. We know too that seemingly undue precautions must be taken to play safe in this game of war. Unpleasant, yes. Unnecessary, well we don't know.

We hope we shall not be misunderstood. We have no quarrel with any man. We believe in the rights of free people everywhere, and like the 135 men who are defending our way of living in the present conflict we are ready to do what we can to make the world safe and free for our children and our children's children. This can only be done when every man is guaranteed freedom of speech and thought. No country ruled by a dictator can or ever will enjoy this privilege. Should we be expected to jeopardize our country's future that subjects of enemy countries should enjoy freedom? Very few of these arrivals are naturalized Canadians. This implies that their the gaining of wealth, not the interest in Canada has been building of homes. In our opinion they should be closely supervised by army units and the absolute safety of Canadians thus ensured.

Raymond Citizens Committee.

Budget Program Is Well Attended

The First Ward presented a very well attended Budget program in their own Ward Friday afternoon and evening last, for First ward people, and repeated it on Tuesday night in the 2nd Ward for the people of that part of town. The houses were crowded on both occasions and everyone present greatly enjoyed the two one-act plays and the musical numbers between acts.

"Ambition", the first offering, was the story of a man who dedicated himself to the attaining of success in his profession, without regard for the feelings of others, or the right or wrong of the case. In the cast were: Mrs. Lee Brewerton, Miss Jeanette Heninger, Miss Vera Meldrum and H. Dean Rolfson and Nolan McMullin.

"Glamor in the Poconos" was the second presentation, the story of a gang of school teachers on vacation, hatching up plots to hide their identity. This was a hilarious comedy and the crowd was in gales of laughter all the way through. Taking part in this drama were: Mrs. Byrd VanOrman, Mrs. Iona Mendenhall, Miss Beth Rankin, Miss Vera Meldrum, and Wally Wilde. Rowan Stutz and C. A. Hudson.

Miss Beth Rankin and Mr. and Mrs. Wally Wilde directed the plays and were assisted in the lighting and costuming by First Ward M.I.A. members.

Between the acts Tuesday night at the 2nd Ward Miss Jeannine Wilde sang two vocal solos, Miss Leta Jensen played two violin solos and Miss Melba King gave a reading. The hall, balcony and aisles were filled at the 2nd Ward and everyone enjoyed the program.

Buy War Savings Certificates

Jacks Turn On The Heat In Third Game

The Union Jacks, one of the best working basketball teams in Western Canada for a long time, hit their stride and really turned on the heat in the third game of their provincial playoff series, when they defeated the Lions to the tune of 45-23, needing only one more point to double the score on the visitors.

From the opening whistle the Jacks started to work and their combination and corner plays were clicking so nicely that after a toss in, Magrath wondered where the ball was, and then they would see it on its way through the hoop. Nalder was going great, especially in the opening half and with the others on the team feeding to him he racked up a total of 11 points, with Turner and Nilsson getting 6 each and Rolfson 2 and Stone 1 to make the 26 for Raymond. In the second half Nalder got 5 before he was sent to the shower for four personals Nilsson got 6, West 4, Turner 2 and Heggie 2 to make the 19 points in the second half for a total of 45.

Magrath worked hard, but the team work of the Jacks was just too much for them. Pilling and Bourne were high for Magrath with 3 each in the first half, L. Bourne 3 and Toomer 1 for a half total of 12. In the second half Pilling got 2, Bourne 3, Toomer 3, L. Bourne 3, for a total of 11 in the last half and a game total of 23.

The pay was fast throughout, both teams worked hard, and the referee had a hard time trying to keep up with the play and tooted up 14 personals on Raymond and 8 personals and a technical on Magrath. Nalder was the only one who went off for fouls. The battle is being renewed in Magrath tonight.

Line up and score follows:

Magrath: I. Bourne, 3; Sabey; Toomer, 4, L. Bourne, 6; Pilling, 3; Birrell 4; Miller; Coleman; Leishman. TOTAL 23

Raymond, Nalder, 16 Stone, 1; West, 4; Turner, 8; Nilsson, 12; Rolfson, 4, Heggie; Evans; TOTAL, 45.

In the preliminary between Stavely and Raymond High schools the visitors turned back the latter squad by a 29-18 score.

William Zemp Passes Away

William Zemp, aged 55 years old-timer of the district, passed away Thursday night at 10 p.m. from Cancer, from which he had suffered for a number of years. His wife and ten children survive, one daughter Zoe having died about two years ago. The sympathy of the community goes out to the family in their bereavement.

NEWS NOTES

Theodore and Henry Enlert were busy putting some shelving in the Treasury Branch Tuesday afternoon for additional supplies.

* * *

Miss Mildred Nilsson was taken to the Lethbridge Hospital last week and given a blood transfusion. Her condition has not been very good for a couple of months past.

* * *

Mrs. C. A. Dahl was operated on for gall stones last Friday morning in the Lethbridge Hospital and is making steady and satisfactory progress toward recovery.

* * *

Gary Cooper in his role in "Sergeant York" won the academy award for 1941. This is a picture you will want to see more than once. It shows at the Capitol next Thursday, Friday and Saturday.

* * *

The Dry Goods department of the Mercantile is re-organized now and presents a very inviting appearance. T. K. Roberts and Jos. Kirkham are busy now with some more display counters on the Hardware side of the store.

* * *

Knowlton Pearl, teller in the Treasury Branch had his family moved from Cardston on Monday. The transport found too much mud for its heavy load and a tractor had to be used to pull the load out.

* * *

The Trekkers Class of the 2nd Ward Primary gave the Sacrament meeting Sunday last, program in the Sunday evening Sacrament meeting January last and gave a very interesting and entertaining program of songs, speeches and memory work.

* * *

When the run off filled the canal Tuesday and overflowed onto the streets there were several places that looked like small lakes. The street in front of the Miff Allred home was flooded, also the one north of the Public School and students at noon had to pick their way very carefully to avoid wet feet

* * *

Relief Societies of the wards are holding the centennial programs Tuesday in both Raymond wards, concluding with an apron and overall dance. It will be one hundred years next Tuesday since the Relief Society of the Church of Jesus Christ of Latter Day Saints was organized In that time the organization and and, its deeds of kindness more than one hundred thousand has grown to a membership of and mercy in times of sickness, death and dire need would total millions. This party is to commemorate the centennial of this wonderful organization.

NEWS NOTES

Mrs. W. A Heninger, who was very ill in the Lethbridge Hospital last week is improving steadily now and will, we hope soon be at home again

* * *

A musical programme featured Monday's Rotary meeting. Miss Jeannine Wilde sang a solo and Delbert Oler, with his wife at the piano played two Saxophone solos. Community singing concluded the program.

* * *

Another bluster of snow blew up Tuesday as the basketball game let out Monday night. It didn't last very long and Tuesday morning the ground was mostly clear. It will however, add to the generous supply of mud on roads and streets which were just beginning to get dry again.

* * *

As spring approaches tractors and equipment of many kinds are finding their way into local garages and overhaul shops for the spring check over This is one year when we will all want to get the maximum service not only out of our gas but also out of our tires Be careful, drive slow, and watch your tires should be our watchword this summer.

THE SHOE PINCHES

"Make the old one do" is the apt wartime slogan suggested by Hon. C. D. Howe, Minister of Munitions and Supply. That means using the old refrigerator, managing with the rusty hot water tank and even the old ash can, so that steel can go into war equipment. Even Junior may have to use a hand-me-down baby carriage. Canada's steel ingot production in 1942 will be more than 100 p.c. greater than in 1939, but as production steps up, more and more steel is needed and must be imported from the United States. The strict American prority system demands equal care in Canada and in the face of an anticipated steel shortage in 42 the consumer must feel the pinch. Purchases of waves made of steel plates, steel sheets, structural steel or steel bars, will be reduced. Mr. and Mrs. Householder are warned that there will be shortages in stoves radios, pails, galvanized roofing, even garden furniture and oil tanks.

Mrs. Canuck will have to make other sacrifices; hoard on her hairpins, for example, and be less fussy over the colour of the buttons of her new suit or coat. The range of color shades in which Bakelite raw material for most buttons can be made, has been reduced from a mere 600 to only 15, because Bakelite resin is used in shells. Novelties, office desk equipment, lighters, etc., will also be affected. Stockings and cosmetics won't be so neatly wrapped in cellophane any longer— cellophane is reserved for use in packaging food candy, drugs and tobacco, not in tins or bottles. The glycerine and ethylene glycol will be used, not for pretty packages, but for anti-freeze in army vehicles and for cordite. Go easy, too, on those corks, for cork supplies to dealers are limited.

When Mr. Canuck settles down to a low-brow evening with the comic and the "pulp" magazines, or a murder story, he'll notice that the paper is slightly yellow in tint. That's because further restrictions on the use of chlorine in bleaching paper have been imposed. The paper's yellow so the plastics can be produced to make ships immune from magnetic mines, that smoke bombs can be made and metal processing plants have adequate supplies of chemicals. And if he buys a new automobile, it won't have the glitter of the old one — nickel plating, chrome, bright tinish— it'll be a strictly utilitarian affair. He may even have to wear his old rubbers for another season, for 43 p.c. of the styles, colors and lines in rubber footwear have been eliminated.

Who cares how much the shoe pinches? It's worth plenty of sacrifices this job of beating Hitler.—Canadian Business.

WEEKLY LETTER

HOT BEDS

Hot beds, usually started early in March, mark the beginning of another gardening season. Where horse manure is available the hot bed is easily made and to many gardeners it is almost indispensable since with it vegetables and annual flowers can be made to produce earlier and also many varieties which usually ripen too late can be encouraged to mature in season.

Many vegetabes such as cauliflower cabbage, celery, head lettuce, tomatoes, and peppers may be started to advantage in a hot bed in the early spring. Annual flowers also, such as asters, snapdragons, petunias and in fact, most small seeded or frost tender sorts do much better if they are given an early start in a hot bed.

When making a hot bed emphasis is placed on the use of fresh horse manure, since this kind of manure heats quickly and produces a greater amount of heat than most other kinds of manure. At first the manure is piled, tramped, and well soaked with water so that it will heat thoroughly. As soon as it begins to heat the pilt is turned over and in doing so the outer edges of the manure are mixed into the centre so that they too will heat.

When the manure has heated for ten days it is placed either in the form of a raised bed on top of the ground or into a pit 18 inches deep. In doing this it is imperative that the manure should be tramped and soaked again. The layer of manure 12 to 15 inches deep, is made large enough so that when the frame is set on top of it the manure will extend two feet on all sides Some of the manure is also about six inches deep. The seed is sown in this soil after the bed has started to heat uniformly.

Glass sash, such as ordinary storm windows, are best for covering the hot bed in cold weather However, good result have been obtained by using unbleached cotton for sash coverings. In cold weather mats or canvas coverings have to be used for added protection.

The seed is not planted in the hot bed until the temperature, whieh at first is very high subsides and remains staticnary at 80 to 90 F. A thermometer is necessary to determine the time when this occurs.

THE CHICKS ARE COMING.

Despite the fact that the weather is very wintry as this letter is being written, the thoughts of poultry producers naturally turn to spring activities. The hatching season is well under way and many of our farm friends will be receiving their spring consignment of chicks very soon. The question naturaly arises whether all necessary preparations have been made to insure that the original investment in the chicks will be safeguarded and the youngsters will have a chance to develop to the full measure of their inherent capacity.

Too often the purchasers of chicks overlook the fundamental fact that when the chicks arrive it is too late to begin to make the necessary preparations to take care of them. This will be especially true this year when equipment of various kinds may be difficut to obtain and the person who has had foresight enough to obtain all things that are required for the young birds is indeed fortunate.

The first move in preparing for the chicks should be to see that the house in which they will be brooded is thoroughly cleaned and disinfected. The next step is to check on the brooder stove and especialy the thermostatic control to insure that there will be no hitch in the operation of this most important item. While it may take a little extra fuel, a few days operation of the stove two or three weeks before the chicks arrive will be well worth while for if it should happen that the thermostat is no longer working satisfactorily, there will still be time to make a replacement. In this connection it is cheap insurance to always have an extra thermostat wafer on hand.

For those who may be mixing their own feeds there may be some slight difficulty in obtaining all the desired ingredients and here again an early order would be of assistance. As yet there seems to be no real shortage of commercial chick feeds and these have proven very satifactory when made by reliable manufacturers.

Many producers in the past have purchased metal drinking fountains and feed hoppers but this year such equipment is becoming scarce and replacements will have to be made with other types of equipment. Fortunately feed hoppers can be easily made of wood and such equipment is both cheap and satisfactory if properly constructed. Drinking fountains cannot be made but crockery fountains are as satisfactory as those made of metal and these should still be available.

A New Valuable TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two years series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter.

An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for shy students!

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10c a day, will bring you the Remette Portable, other models a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

Remington REMETTE PORTABLE

Lowest priced complete standard portable in Canada. Full standard keyboard, shift keys, shift lock, back spacer, margin stops. Extra strong geared type action, nothing that can get out of order. Full mechanical guarantee. You'll be thrilled when you see how easy it is to type with the Remette Portable.

FREE! 32-PAGE TOUCH METHOD INSTRUCTION BOOK

with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

POTATOES GOOD

In most American household, potatoes are served at least once a day. Nutritionists say that the potato is an important food and deserves a lot more appreciation than it sometimes gets.

Many persons mistakenly think of the potato merely as a "starchy" food, but it contributes more to the diet in minerals and vitamins than do bread cereals and sugar, say food specialists at the New York State College of Home Economics.

The potato may be compared with an orange. Both contain a large quantity of water. A large orange gives about the same amount of energy as a medium sized potatoe. Both contain valuable vitamins and minerals, such as calcium, phosphorus, iron, and vitamins A. B. and C.

True, the orange has more calcium than the potato, but the potato has more phosphorus. They both contain about the same amount of iron. Neither has much vitamin A, but both have an appreciable amount of vitamin B.

Although the potato contains considerably less vitamin C than does the orange, nevertheless it is considered a valuable source because of the quantity eaten. Like many other vegetables, freshly harvested potatoes contain more vitamin C than do stored potatoes.

The notion that potatoes should be omitted when trying to lose weight, is not sound. Because of the potato's minerals and vitamins, it is better when reducing to omit foods which contribute little besides energy value than to omit potatoes.—Deseret News.

Correspondence

Lethbridge, Monday.

Raymond Mayor,

Dear Sir:

Why in the name of God are you allowing the Mormons to bring in all them Japs all they to cheap labor. Why not give some of the poor people in Raymond the same chance you or they are giving the Japs. Don't they think of their young people the life of the cominity if they bring in all of those Japs. These Japs are smart they are not crasy they talk among themselves. I think a few of these good Mormons who are trying so hard to get something for nothing (of course that is the Mormons any way) had better go to Japan to live.

Raymond has got lots of poor people who could do with a little help they are kicked in the face and Japs are given the chances. is Japan doing the same by our boys, fighting for them, you and us No, for God sake Mr. Mayor act befour it is too late.

Raymond March 12, 1942.

Editor of Recorder,

Raymond.

Dear Sir:

Please allow me a little space to refute the silly statements in the above letter. In the first place the writer had not the courage to sign it, and secondly it looks like the work of an educated person trying to hide behind the mask of ignorance and illiteracy. So much for the author.

May I say that the accusations respecting the Mormons and the Japanese coming into Raymond are entirely false and without foundation. Secondly I would like to say that I have lived in Raymond for nineteen years and have always found the so-called Mormons, fair-minded, ready to co-operate in everything for the good of the community, and certainly not trying to get something for nothing.

If the author of the letter is so altruistic in thought and sentiment, why not come out in the open and assist in solving a problem that is disturbing to all of us.

Yours truly,
P. W. Cope Mayor.

Arthur Crifield of Magrath was a Raymond visitor on Tuesday.

* * *

Raymond left on doubt Monday night as to the basketball game lacking only one point of doubling the score on Magrath Lions.

* * *

Ren Mitchell spent the week end with his wife and friends here on his way east from special training in the military school on the west coast.

Mrs. Freeman Cook, Magrath, mother of the late Mrs Bill Witbeck, Stanley Cook, Mrs Lawrence Bacon and Mrs. Bob Heggie passed away in Magrath Friday and the funeral was held Monday afternoon. Mrs Cook had been ill for ten years with diabetes and a stroke further aggravated her condition. Our deepest sympathies go out to the sorrowing husband and children in their bereavement.
